

GLASS POOL FENCE INSTALLTION CHECKLIST

PLANNING AND SET-OUT

- Is your deck or concrete damage and rot free?
- Design your fence including gate/s with our friendly sales staff
- Check the design meets your local regulations
- Do a pre-order trial layout
- Will you require factory applied Enduroshield?
- Place your order!
- Get your delivery date
- Have a buddy ready to assist in unloading and handling of the glass panels
- Clear delivery access and a good sized working area
- Prepare your tools, glass separators, protection and safety gear

INSTALL DAY

- Mark your glass run centrelines
- Mark where your gate, panels, gaps, and spigots will fall
- Install your hinge panel (core drill or screw fix)
- De-tension the hinge and install your gate
- Fit gate hardware and re-tension hinges
- Install the remainder of your fence panels
- Install each panel with at least two timber props, checking for alignment
- Make any final adjustments, shimming if necessary & fully tighten

MAINTENANCE

- Plan regular cleaning of the glass
- Plan your hardware maintenance

CERTIFICATION

- Along with our quality assurance document, contact your local pool inspector to have your pool certified
